Poor Oral Hygiene

Good oral hygiene not only keeps your smile bright, but also supports your overall health. Poor habits can lead to problems beyond your mouth. Here are signs your oral hygiene may need improvement:

1. **Bad Breath:** Persistent odor may result from bacteria buildup.
2. **Gum Disease:** Bleeding, swollen, or receding gums signal potential gum issues.
3. **Cavities:** Dark spots, holes, or sensitivity could mean tooth decay.
4. **Toothaches:** Ongoing pain may indicate infection or decay.
5. **Plaque/Tartar:** Sticky buildup hardens into tartar, requiring professional cleaning.
6. **Stained Teeth:** Discoloration may stem from poor hygiene or diet.
7. **Dry Mouth:** Lack of saliva increases the risk of decay and gum disease.
8. **Tongue Changes:** A coated or discolored tongue may point to bacterial or fungal issues.

If you notice any of these symptoms, it's time to improve your routine. Brush, floss, and visit your dentist regularly – your smile (and your health) depends on it.
